The APPEAL is and will continue to be the exponent of the party of the people, the party which has not only de feated Radicalism, but, as Dan Voorhee proved in his speech, has compelled the repeal of much of the odious legislation that

brought ruin to the masses of the people.

A CORRESPONDENT of the Nashville Ban ser, writing from Knoxville, and who has recently traveled through all the counties of East Tennessee, says that the people, as a rule, are of the opinion that the settlement of the State debt question should be submitted to them by proper legislative enactment for their consideration and ratification. Their earnest conviction is that if the matter is left to the general assembly to adjust, an unfavorable compromise will be accepted in the name of the State, such as will be altogether unacceptable to the masses. The idea of submitting the question to a vote of the people is rapidly growing in favor, and there is no doubt but that a majority of the counties in East Tennessee, which will hold their conventions to select delegates to the State Democratic convention, to convene in Nashville on the fifteenth instant to nomi-THE great christian soldier, O. O. Howard, nate a candidate for governor, will so instruct their delegates.

> The question of the payment of the State debt is the rock on which the Democratic party in Tennessee is likely to split. Postnaster - General Key Inclines to the belief that the policy of repudiation, which is appearant in Democratic counsels, will result in the alternation of a large and influential class of men who are opposed to the accritices of the suit in the allenation of a large and influential class of men who are opposed to the sacrifices of the holor and credit of the State by a refusal to provide for the meeting of its financial obligations. It is a favorite argument with the repudiationists of Tennessee that the bonds are held by northern men, who were their enemies in the war of the rebellion, and for this reason ought not to be paid. Judge Key confidently anticipates a serious division in the party on this issue of repudiation as honesty in this fall's elections in Tennessee.

The above is from the Chicago Tribune, and is copied by us that the low-tax Democrats, as they call themselves, may see what ize them. We also copy it for the purpose of stating, for the Tribune's benefit especially, that Key's strongest supporters and most ardent friends in this (Shelby) county are among the most rampant of what it terms committee, at the next meeting, to get at the repudiators. We may also add that Mr. Lately established between Senator Kellogg Itics as the Tribune is, and is regarded as and the administration. Mr. Butler suspects highly by the Democrats of the State as the something crooked in the arrangement, and people of the south are by the Tribune, judggraph.

As confirmatory of this intention, it seems a fact that Hubbard took steps beyond the usual treatment of a paramour, and actually sent the girl to the convent here—the Ursuline for a time for instructions in music and other accomplishments. Miss Sarah's first connection with Hubbard's family was as a domesic, doing common housework. Last fall, in in Cyprus, which place is unquestionably Bishop's electioneering expenses in the last October, Barrett says Hubbard came to Blissfield, Michigan, and proposed to give him a situation in the railway office if he would move to Toledo and furnish a place to keep Sarah, whom he still talked of marrying. BRITISH GRAIN. Harvesting Begins a Week Earlier than Usual, with Eminently Satisfactory Results, Former Complaints to the Contrary

Barley has improved a little, owing to the recent showers, and where early sown on good soil the crop promises well, but in the eastern counties especially the grain has suffered much from blight and premature ripening. The yield in these districts will be poor. Roots are doing well, but would be better for more rain, particularly in Scotland, where turnips and potatoes are suffering for want of moisture. There was very little change in trade for English wheat, which was quiet, but steady; supplies were moderate; freshly threshed samples commanded full prices; ecasional samples of the new crop have been hown by growers. Imports of foreign wheat into London have been more moderate, and the foreign wheat trade maintains its firmness. Notwithstanding the proximity of the harvest the lower prices telegraphed from America tempted many millers to increase their stocks, and the week's sales have been fair. There does not, in the immediate future, appear to be much reason for apprehending any but slight fluctuations in value Maize on spot has eased slightly, both in London and Liverpool, owing to the con-tinued heavy arrivals of shipments from Atlantic ports, but prices for cargoes off the

THE LABOR PROBLEM.

Some Absurd and Many Contradictory Views by the Workingmen Examined by the Congressional Committee

Now in Session in New York.

Questions Submitted by Mr. Hewitt to the General Public with a Request for Co-Operation in Obtaining Answers-Suggestions from Employers Wanted.

NEW YORK, August 6 .- This being the last day of the congressional labor investigation committee, the attendance was unusually arge. G. E. M'Neil, president of the Inter street a crowd of negroes thronged around him with innumerable razors and knives, with the cry, "Kill the d—n white——."

In a tiorial Workingmen's union, residing at West Somerville, was the first witness. The whole difficulty, in his opinion, is the wages system of labor, or, in other words, that the wages system and steam engine are cotemporaneous, and that the productive power ha excelled the power of consumption. He fa-vored the eight-hour law throughout the

country.
Mr. Beck, of Danbury, Connecticut, fol lowed. He thought that, instead of lending hundreds of millions of dollars to the banks, the government should lend some few hundred millions, free of interest, to the workingmen. He read a long petition to congress, asking the government to lend any man fifty thousand dollars to build a house with, the amount to be paid back by installments.

Mr. M. Seltick was for abolishing the United States senate, restricting the power of congress and the President to issue fifty-eight ollars per capita, curtailing home labor to

six hours, and allow no one outside the labor oureau to employ laborers.

Mr. Kemp believed the cause of the depression was the war, an over-issue of currency, and extravagance caused by the short period of tariff, all of which ought to be

NOTICE 10 HOUSENOIS.

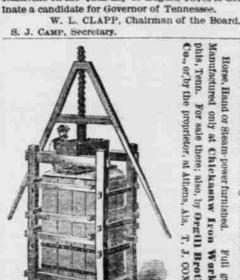

Tuesday, August 6, 1878.—The following or der was to-day issued by the Board of Health: By Sectod 419 City Ordinance. It is made the duty of every owner, tenant, lessee and occupant of any and every building within the city limits, to provide such receptacles for accumulating refuse as will at once proceed to cleanse their premises and distinfect them with lime and carbolic acid. It is impossible to supply garbage-carts with regularity and system in the present embarrassed condition of the city. All refuse must be removed at private expense at least three times a week. Water-closets must be disinfected once a week. The Board suggests three pounds of copperas, one quart of Calvert's No. 5 carbolic acid (or three quarts of crude carbolic acid), to woo gallons of water, as a cheap and effective mixture to use in privies, and to sprinkle in cellars, yards and gutters.

The practice of throwing dead fowis, rats, water-melon-rines, fruit-parings, filth, slops, etc., in the gutters and obstructing them with waste-paper, must be stopped from date. Violators of this will be constantly made, and sanitary laws r
